## Coal River Terminals Serving Western Kentucky by River and Milepoint, 2000

River/River Pool	Milepoint	Bank*	Operating Company	River Terminal Name
<b>Cumberland River / Barkley Pool</b>				
Barkley Lock & Dam	30.60			
Eddyville	43.60			
<b>Green River / No. 1 Pool</b>				
No. 1 Lock & Dam	9.10			
	11.60	L	Centennial Resources, Inc.	Henderson Dock
	31.50	L	Grand Eagle Mining Co., Inc.	Grand Eagle Dock
	43.90	L	Sebree Dock, Inc.	Sebree Dock
	49.00	L	Onton Dock, Inc.	Onton Dock
<b>Green River / No. 2 Pool</b>				
No. 2 Lock & Dam	63.10			
Rough River	71.30			
	73.50	L	Arnon, Inc.	Arnon Dock
	85.20	L	Peabody Coal Company	River Queen Dock
	85.90	L	Peabody Coal Company	Gibraltar Dock
	94.00	R	Centennial Resources, Inc.	McCoy Dock
Western Ky Parkway Crosses	95.50			
	97.70	R	Peabody Coal Company	Ken Dock
Paradise	100.00			
<b>Ohio River / McAlpine Pool</b>				
Ghent	537.50			
	601.00	KY	River Road Terminal, Inc.	River Road Terminal
Louisville	602.80			
McAlpine Lock & Dam	606.80			
<b>Ohio River / Cannelton Pool</b>				
	618.00	KY	Cooper T. Smith Stevedoring	Jefferson Riverport
Cannelton Lock & Dam	720.70			
<b>Ohio River / Newburgh Pool</b>				
	750.00	KY	Lanham River Terminal Co.	Lanham River Terminal
	751.70	KY	Clark Enterprises, Inc.	Clark Coal Dock
	752.80	KY	Yager Materials, Inc.	Yager Coal Dock
Owensboro	759.30			
Newburgh Lock & Dam	776.10			
<b>Ohio River / Uniontown Pool</b>				
Green River	784.20			
Henderson	803.80			
	807.20	KY	Consolidated Grain & Barge	CGB Henderson
	807.60	KY	Henderson Co. Riverport Auth.	Henderson Co. Riverport
	827.50	KY	Mt. Vernon Coal Transfer Co.	Mt. Vernon Coal Transfer
	841.60	KY	Peabody Coal Company	Peabody Camp Terminal
	843.90	KY	Island Creek Coal Company	Uniontown Loading Dock
Uniontown Lock & Dam	846.00			
<b>Ohio River / Smithland Pool</b>				
	851.70	KY	Island Creek Coal Company	Hamilton Loading Dock
	870.10	KY	Dekoven Dock, Inc.	Dekoven Dock
	871.50	KY	Lodestar Energy, Inc.	Caseyville Dock
Smithland Lock & Dam	918.50			
Cumberland River	922.60			
Tennessee River at Paducah	934.50			
Lock & Dam No. 52	938.90			
Lock & Dam No. 53	962.60			
Olmsted Lock & Dam	964.40			
Mississippi River	981.00			
<b>Tennessee River / Ky. Lake Pool</b>				
Interstate 24 Crosses	21.10			
Kentucky Lock & Dam	22.40			
	22.70	R	Grand Rivers Terminal	GRT Site I
	22.90	R	Grand Rivers Terminal	GRT Site II
	23.00	R	Grand Rivers Terminal	GRT Site IV
	24.80	R	Grand Rivers Terminal	GRT Site III
Barkley Cannal	25.30			

\* R and L indicates the *right* and *left* bank of the river traveling downstream for river segments with both banks in Kentucky.

## Directory of Coal River Terminals

### User's Guide

The coal river terminals included in this directory are listed alphabetically by operating company on the following pages. The majority of the data presented herein have been obtained from the operator, the owner, or the U.S. Army Corps of Engineers, and represents the status of these terminals as of March, 2000.

The information on the operating company, owner, and permit holder is self-explanatory with the following exceptions: The **"owner"** usually refers to the owner of the operating company and not necessarily of the river terminal. In most cases, the U.S. Army Corps of Engineers **"permit holder"** is the actual owner of the river terminals facility, but the terminal may be leased to someone else for operation of the facility.

Following are explanations of data items which may be included in the directory listing:

**Terminal Name:** The name as reported by the operator or owner.

**Other Names or Former Name:** Company names, location names(nearby towns or cities), or previous names(including those of previous operators or owners) by which the terminal was known. "N/A" means "not applicable", and "N/R" means "none reported".

**River and Navigation Pool:** Indicates the river in which the terminal is located and in which navigation pool/lock and dam. Lock & dam and pool locations can be found on page 2 of this directory .

**Milepoint and River Bank:** Published milepoints were found to be inconsistent even between various U.S. Army Corps of Engineers publications. To resolve the inconsistencies, the loadout point was marked on topographic maps and the milepoint was measured. These measurements were used to verify published data, or in place of published data where significant differences were found. "L" and "R" indicate the "left" and "right" bank of the river traveling downstream for river segments with both banks in Kentucky. For rivers which border Kentucky, the Kentucky Bank or the neighboring state bank was indicated.

**Operational Status:** There are two categories: "active," i.e., in operation as of March, 2000, and "inactive," i.e., physically present but not in operation in March, 2000.

**Terminal Availability:** There are three classifications: "captive," i.e., the terminal is owned and operated by a coal company for the exclusive use of that company; "restricted," i.e., the privately owned terminal is reserved primarily for the use of coal companies, but some excess capacity may be available now or in the future; and "open," i.e., the terminal is available for use by anyone (although some special restrictions may apply for each terminal)

**Access:** Refers to "transportation access" by which the river terminal can receive coal, via truck, rail, barge, conveyor or a combination of the above methods.

**Rail Car Capacity:** Indicates the total number of rail cars that can be stored at or near the terminal, both empty and loaded.

**Barge Capacity:** Indicates the total number of barges which can be fleetted at or near the terminal, empty and loaded. Some terminals are listed as using nearby barge fleetting service.

**Loadout Rate:** Indicates the hourly rate at which the equipment can load coal into a barge, as reported by the operator or the Corps of Engineers. This is usually the equipment manufacturer's rating which indicates maximum capacity under ideal conditions, although several of the terminal operators relied on their own experience in reporting this figure.

**Annual Capacity:** Estimates are by the operators and are therefore somewhat inconsistent in definition with regard to the number of working hours per day, workdays per year, and the expectations of breakdowns, bad weather, river conditions, etc. However, these should be considered with the standards of operation at each terminal.

**Ground Storage:** Indicates the maximum number of tons or acreage available for stockpiled coal at the river terminal.

**Equipment:** Indicates the capability for coal crushing, stoker coal preparation, automatic sampling, or automated blending at the terminal.

**Nearest Town:** This usually refers to the nearest well-known "major" city or town and not the nearest community.

**County:** This is the county listing that the river terminal is physically located in.

**Quadrangle/Latitude/Longitude:** Refers to standard U.S. Geological Survey (USGS) topographic 7.5 minute quadrangle maps. The latitude and longitude usually indicates the location of the terminal loadout point, and not the entrance or building locations.

**Nearest Intersection:** The nearest intersection of a highway or street where the terminal is located.
